Promise Nuwasasira

Software Developer

Promise is a passionate entry-level software developer, with a love for writing code and using it as a tool to solve real-world problems. She is able to translate designs and wireframes into high-quality code that is reusable and maintainable. She can effectively self-manage during independent projects, as well as collaborate as part of a productive team.

Technical Skills

- Javascript HTML/CSS – Ability to manipulate the structure of responsive web pages using Vanilla JavaScript HTML and CSS
- Django – Ability to create a secure and maintainable application.
- Python – Capable of writing reusable code using Object oriented programming in python
- Kotlin – Able to develop simple mobile applications
- UI/UX Design – Capable of translating ideas into designs that can be changed into high–quality code

Education Background

AkiraChix Feb 2021 – To date

–codeHive program –Diploma in Information Technology.

Relevant modules

Front End Web development

–React JS framework

–HTML/CSS

Mobile development

– Kotlin

–Android Studio

Backend development

–API development using Django framework

Projects

Front End Web Development

- Shopping site using javascript: Created a shopping website for fruits where users select the fruits of their choice and add them to the cart. https://fruits-shoping-site.vercel.app/

- Digital clock: Created a clock to display current time using JavaScript DOM, Html, and CSS. https://local-timer.vercel.app/

- Weekday's app: Managed to create a weekday's app using javascript that enables the user to know the day once clicked https://weekdays-app.vercel.app/

Backend Development

- School system – Managed to develop a school management system that allows control of various school activities in Django. https://github.com/Promise–nuwasa/school_system.py

- Events Calendar: Created an events calendar that allows the user to add, delete and see upcoming events using Django

- Object-oriented programming using Python

Hardware Electronic

-Arduino

-TinkerCad

UI/UX design

-Adobe Tools

-Figma

Entrepreneurship

-Lean product process

-Market segmentation

-Mvp

San Giovanni School-Makiro

-Uganda Certificate of Education

Kinkinzi High School 2018-2019

-Uganda Advanced Certificate of Education

framework

https://github.com/Promise-nuwasa/Events-calendar

Mobile Development

- Contact App -
  https://github.com/Promise-nuwasa/contact-list-app

ACHIEVEMENTS

- **Virtual Assistant short course at AJIRA.** - acquired data management and content writing skills
